A Symbol to Mark the Path

Green Shift™

Facilitator of Environmental Stewardship

What is Green Shift™?

Green Shift™ is as much a concept as it is a company.

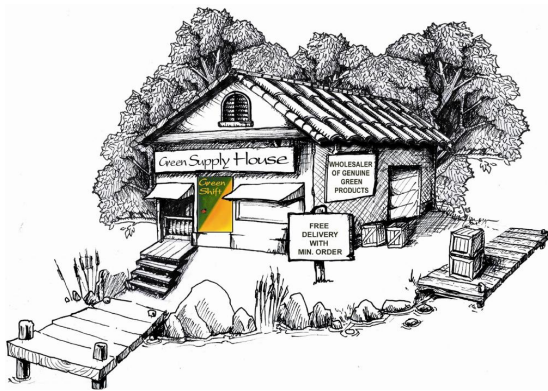

As a company, it is a Facilitator of Environmental Stewardship, with a focus on making it easy and cost-effective for organizations to be environmentally responsible.

As a concept, it is about navigating a path and shifting the economy to a very deep shade of green.

The essence is based on helping companies, through a series of initiatives, to be environmental leaders, (or helping true leaders to be recognized), in order to set a precedent, and create a friendly natural force in the marketplace that gathers support and encourages others to follow.

Our role is in navigating the path ahead and working daily to facilitate it. Furthermore, in persevering and growing a strong force in order to bring about continuous environmental improvements — aiming for ideals that can only be accomplished through passion, determination, applied knowledge, and the power of numbers.

The real *Green Shift* is what we together are creating - a form of unified diversity. We thank all companies and individuals who are helping us to bring about a greener world.

What is the Green Supply House™?

When our assessments and consulting revealed that distribution channels were not willing to offer our recommended environmental alternatives, or when they did but would later switch our clients back to the non eco (often claiming that it was the "new eco"), we concluded that the only way to ensure that real environmental alternatives were available to the market was to develop the means to do it ourselves. Green Shift™ developed the Green Supply House™ in 2001 and became the first "distributor" in North America, possibly the world, to ensure that all our products offer the best available environmental solution.

To this end, Green Shift™ acts as a sourcing and screening agent for the products, and a consultant and advisor to manufacturers and consumers. The Green Supply House™ acts as a warehouse and distributor. Together it results in an efficient tool to bring about change as consumers are given a value added source of products that have already undergone screening, and a one stop shop for quick and easy solutions that immediately help to 'environmentalise' any operation. At the same time, purchasing dollars are spread layers deeper than the products themselves as we leverage buying power in order to push for continuous environmental improvements.

Green Shift™

Facilitator of Environmental Stewardship

The Green Shift™ Insignia:

This symbol is used to identify the components of Green Shift™ - essentially a marker on the path, used to help individuals to recognize items and companies that are a part of the Green Shift™ program. While until now it has been reserved for only a small percentage of inanimate items, and only a small percentage of the businesses that are shifting, this was due to a desire to protect the integrity it upholds, and to wait until we had the resources to do it justice.

It is important to note that while at one level this symbol represents products or services that we have assessed and found to be the most environmental choice, it really is more about creating recognition for leaders, and marking the path to sustainability. Recognizing that we are chasing a moving target, and that very few things are yet 100% green, this symbol is a representation of something that is a part of the journey to Green, rather than the end in itself. Companies who are supporting this are therefore helping to bring about continuous movement and/or improvements. In the coming years we hope to grow internally in order to provide more services to help you be part of the Green Shift™, and to be able to use this tool more widely in order to gather support and really make strong headway on our journey to a deep shade of green.

A Brief History:

Green Shift™ has been performing assessments of goods and services since long before developing the Green Supply House™. The founder of Green Shift™ has had a lifetime in environmental preservation, and years of studying and work involvement with worldwide environmental auditing and certification programs (including many years auditing for the US Green Seal™, Canada's Eco Logo™ and the Green Leaf Eco Rating™ Programs).

Respecting the need for a minimum standard, but wanting a system that would push for ongoing improvements, we began the concept of Green Shift™.

A Brief Update:

It has been seven years on the path, and while we have come a long way, we still have a long way to go. That said, we have hit a milestone and we would like to thank everyone (businesses and individuals) who have helped us turn a pipe dream into mainstream. In this next leg of the journey we look forward to shifting things to the next level. If you are not already a part of the Green Shift™, we hope you will join us as we are tackling important environmental goals, and we need our network to grow stronger in order to create a genuine shift in the marketplace.

A Brief Note:

Green Shift™ is a small company funded through a very transparent source, preventing corporate buyouts or hidden biases. As such, while we strive to help everyone as much as possible, we use products to fund our research, advocacy and consulting, and any donations we can offer have to be in the form of advice and consulting so that we are far removed from anything that constitutes a buying of support; so that better alternatives are never confused with the bigger goal of reduction, period. It follows that we practice price integrity and strive to be fair across the board, in an unchained manner. Most importantly, this allows for the assurance that any companies found with the Green Shift™ insignia can be deemed to be authentically a part of these initiatives. Our main filter is to support people and organisations that are genuinely helping to ensure social and environmental justice - not the ones just trying to fool the public. Any deviations from this are a very transparent form of price assistance that is earned by those who are most helping the cause.

Once again, we'd like to thank every business that is part of the Green Shift™, and every individual who chooses to support the facilities who are a part of the Green Shift™ network.

Green Shift™

Facilitator of Environmental Stewardship

Services:

Environmental Assessments:

- Full facility Review
- Analysis of Packaging and Materials
- Written Assessment and Consultation

Waste Reduction Measures:

- Waste Assessments, Plans for Reducing, Sourcing Recycling Markets... finding solutions.
- City By-laws, Provincial Regulations, News updates
- Local Contacts, Sourcing and Price Quotations on waste related matters

Environmental Policy Development:

- Written commitment of environmental consciousness and a set of obtainable goals

Green Procurement:

- Education about Eco-labels, Certifications and establishing Green Buying Criteria
- Sourcing and/or Cost Analysis of any Environmental Products or Services
- Brokering and/or Supply of “Green” Products

Marketing & Communications:

- Analysis and Advice for reaching environmentally concerned consumers
- Ideas for materials for internal or external awareness building
- Ideas for incentive programs, capturing media attention and gaining internet presence
- Writing inserts for internal newsletter to promote staff awareness

Water & Energy Efficiency:

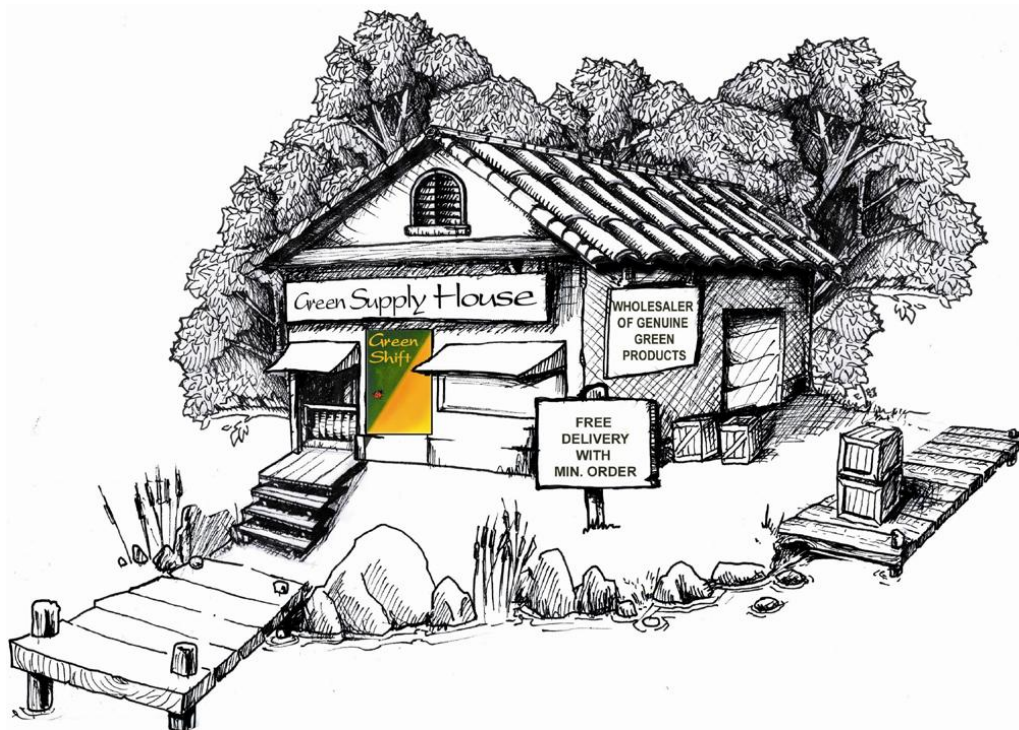

- Water and Energy reduction assistance, general recommendations and helpful advice
- Referrals and/or Negotiations with Service Suppliers
- Critique of Proposals and/or Project Management for Renovations
- Cost/Benefit Analysis

Miscellaneous:

- Consultations, Training and Implementation
- Developing, Assisting and/or Chairing Environmental Committee Meetings
- Providing answers or directions to questions, problems and set-backs
- Defining priorities, goals, time frames and organizational structure to measure progress and returns
- Defining measures needed to fulfill expectations and delegating roles & responsibilities

2011 CATALOGUE

Orders can be placed by:

Phone, Fax, Email or Online at
www.GreenSupplyHouse.com

**All orders must be confirmed in writing.
Email: orders@GreenSupplyHouse.com / Fax: 416.649.0016*

Procurement Guidelines & Principles:

- Green Shift™ has spent years educating manufacturers and suppliers about reducing waste, conserving our natural resources, and preserving our natural environment. On an ongoing basis, we ask manufacturers to provide environmental data pertaining to their products and methods (including sources of raw materials, content details, and recyclability of any resulting waste), and we ask them to do lifecycle analyses to determine the most environmental choice.
- Green Shift™ supports, encourages and/or educates and helps companies to minimise packaging and/or develop innovative methods of reusing, reducing and recycling. When packaging is necessary, where possible, Green Shift™ selects companies that use packaging made from renewable resources and/or the highest post consumer recycled materials, and avoids materials processed with harmful and/or unnecessary chemicals.
- Green Shift™ has spent many years educating or pleading with manufacturers to stop using plastic #3 and #6, and in turn has played a major role in persuading businesses across Canada to do the same. Best alternatives are/have been sought and provided on a case by case basis.
- Green Shift™ does its very best to avoid and find alternatives to manufacturers who use unnecessary chemicals or pollution-generating substances. Beyond the obvious avoidance of chlorine or petroleum derivatives, this includes a large and meticulous cross-referencing of chemicals on virtually all databases of safety warnings and "right to know" listings.
- Green Shift™ considers the entire lifecycle of products and services in its purchasing decisions and does its best to operate itself in the most environmentally sensitive manner. This includes careful consideration and balancing of the source of raw materials, the manufacturing process (including waste generation, by-products, water and energy usage and the ethics of the companies that are benefitting from the business), the required transportation, the methods of storage, handling and use of the finished product, and what becomes of the product after it has fulfilled its purpose. Like many small companies, we have limitations on certain aspects of our own processes. For example: we do not own transport fleets, however, we convey a strong message to all of our suppliers and constantly push for improvements.

Legend:

Green Shift™ performs its own assessment of goods and services however, a part of that means a cross referencing of other programs. The following is an explanation of what this means.

 Canada's Eco Logo signifies Certification by Canada's Environmental Choice Program, as a product that is environmentally preferable: environmentalchoice.ca

 US Green Seal - third Party validation/Certification of product meeting set criteria: greenseal.org

 Chlorine Free Product Association - signifies that no chlorine is used in the production: chlorinefreeproducts.org

 The Forest Stewardship Council - Reputable validation of sustainable forest practices: fsc.org

 European Union Eco-label - signifies Environmentally Preferable Choice: eco-label.com

 No Animal Testing. Our own cross referencing of various Animal Friendly Validations and or written guarantees from manufacturers. (because there is no official regulated seal) Note - not listed on products that are not applicable

 Fair Trade Symbol: signifying that workers were paid a fair price for their wares: TransFair.ca

Specifically used for products imported from developing countries where workers are commonly not paid fair wages.

 Green Shift Insignia - A symbol to identify companies and/or products that are in the category of environmental excellence. Our assessment is an umbrella over multiple certifications. It does not guarantee nor imply that there are not issues still to resolve. On the contrary it represents a product that we, with the help of the collective Environmental Leaders who are a part of our program, are helping to push and ensure continuous improvements. Most of the products that we endorse and/or supply will have met or exceeded multiple standards but we also developed Green Shift to help identify and support leading products and manufacturers who cannot afford certification but who have been investigated and have participated in either written validation and/or an on-site examination by Green Shift. The founder of Green Shift is a long time auditor with the US Green Seal and Canada's Eco Logo. More information can be found at: www.GreenShift.ca, or by calling us at: 416.925.9665

 Green Shift Company Logo - Anything and everything sold under the name of Green Shift is done so with the utmost consideration to the full lifecycle impact and thus is an assurance to anyone looking for the most Environmental Choices. Not shown on any individual products as it applies to ALL Products found in the Green Supply House.

How to Order:

Most new enquiries receive at least 20 minutes of consultative advice and questions (on the phone) in order for us to learn about your business and ensure that we can provide qualified advice on the areas that have the most environmental impact. Ongoing advice then continues as the relationship grows and develops.

Requests for services are best emailed to: info@GreenShift.ca.

Product Orders are best sent by fax: 416.649.0016, or by email to: orders@GreenSupplyHouse.com

**Note - we check the above order methods regularly and notify of any/all orders that are received so that there are NO lost orders. If you do not receive a confirmation of your order within 2 working business hours - please contact us as it might not have come through.*

Orders can be placed over the phone however they need to be confirmed in writing before they are processed.

Prices:

The Green Supply House™ is a commercial outlet and as such, the following prices are wholesale prices for businesses and organizations. All items are stocked by the case and delivered individually or on pallets.

If you are an individual looking for green products, we have a scaled back list of items that are available in small volumes - if this is of interest, please ask for our retail price list. If you are a distributor or a large volume buyer, with multiple locations to service, please contact us to discuss what discounts we can provide.

For wholesale customers, we also have an eco points system that recognizes and rewards environmental stewardship. Accounts are reviewed quarterly and notifications are sent to those who qualify. In brief, we assess and attribute points to those who are greening in multiple areas, or those who are particularly supportive of Green Shift, our network and our collective environmental goals. Points are then translated into a percentage discount that applies to all items, across the board. If you would like more information on our eco points system - please enquire, or, if you are registered in our website, there is information available there.

- * Prices do not include taxes or shipping & handling. Deliveries are subsidised for orders over \$300 and will be fully covered if and where possible.
- * Minimum order is \$150. Occasional exceptions are made for regular customers.
- * All regular customers will be notified if prices change.

Terms:

* **Orders received before 12:00 noon leave our warehouse the following business day.** Depending on your location(s) you will receive your order that day, or within 2 -3 business days if you are in a central area. Longer times can be expected for more remote regions. If you would like an ETA for your location, please email us, with your postal code.

* A request for rush service is free and we will always try our best, but if it needs to be guaranteed with a time restriction, extra charges are generally incurred.

* Returns and exchanges are accepted within 60 days of purchase, provided it is in resellable condition; unopened, in original packaging that is not damaged or marked and accompanied by an invoice. Making arrangements for a return is the responsibility of the client and may be subject to a 20% restocking charge. If there is a problem with the product or an error made on our part, Green Shift™ will collect and provide a prompt full refund.

* All prices are based on COD. Longer terms can be established for strong supporters, after a rapport has been established, if we can be assured that we do need to spend time and money to collect payment.

Guarantees:

* Green Shift™ stands behind the quality of all products sold through the Green Supply House™. If something does not meet your expectations please tell us. We will do everything we can to rectify the problem in a sensitive and timely fashion.

A word about our pricing and guarantees: The most important guarantee that comes with anything from Green Shift™ is that your purchasing dollars go layers beneath the surface. Sales are a means to an end, not an end in itself. In addition to extensive time in pioneering work and expertise in sourcing, screening and educating, we put a lot of time and expense into monitoring and pushing for environmental improvements. Although we have made a lot of headway, there is still a lot to be done. Despite these additional costs, we strive to be very competitive with companies who are simply looking to turn a profit. While we often succeed in having low prices, we do not guarantee to be the lowest, but we do guarantee to be the most fair. If our prices are ever perceived as anything but fair we would appreciate hearing about it as we are here to work as a team. We sincerely hope you will join us, and we thank you in advance for helping us to grow a strong collective voice for social and environmental well being!

Product Categories

Section	
1	Paper Stock: Variety of Copy & Writing Paper ranging from a minimum of 30% Post Consumer Recycled Content to 100% Post Consumer and Tree Free. Also a line of folders and envelopes – please enquire for details.
2	Paper Amenities: Recycled toilet paper, facial tissues etc. Either Kraft (non bleached) or whitened with oxygen bleach - No Chlorine!
3	Cleaning Supplies: All purpose cleaners that surpass all environmental standards for cleaning supplies and work well on almost everything. Also, accessories that are durable and long lasting, reduce single use and conserve resources.
4	Waste Containers: Virtually any type of recycling container you are looking for. Many are made from 100% recycled fibres such as chip bags – which are typically sent straight to landfill.
5	Waste Bags: Full line of garbage bags - up to 40% Post Consumer Content. Made in Ontario.
6	Biodegradable/Compostable Bags: Made from recycled materials and renewable resources - paper and biopolymers (corn starch and cotton seeds), NO GMO's, Multiple Eco Certifications.
7	Biodegradable Cups & Accessories: Revolutionary Hot & Cold Drink Cups - Biodegradable materials (& coatings), renewable resources.
8	Biodegradable Accessories & Sm. Containers: Straws, Utensils, Portion Cups, Film and paper wrapping.
9	Take-out Containers: Plates, Bowls, Take-Out Containers... made from 100% Renewable Resources & 100% Biodegradable.
10	Warming Fuel: An ethanol fuel made from sugarcane (a renewable resource) which is safe to use and an excellent replacement for the very toxic diethylene glycol and methyl alcohols!
11	Food/Beverage: Coffee, Hot Chocolate and Sugar: Fair Trade, Sustainable, Shade Grown, Bird Friendly, Organic, Fresh Roasted... supporting our GS network & cooperatives around the world.
12	Ice Melter: To replace highly toxic calcium and sodium chloride (Rock Salt). This alternative is less toxic than baking soda and leaves a clear liquid residue.
13	Other: Green Shift has been building a database of eco alternatives since the mid 90's. Other, non list items are brokered direct from manufacturered or supplied for special orders. If there is something you are looking for, or would like to have researched, please don't hesitate to ask.

A FEW THINGS TO KNOW ABOUT US:

- *First in Canada to get biodegradable products onto the market, and for some items, first in North America.
- *Pioneering change since long before it was trendy.
- *Not just selling products but using purchasing dollars to leverage change from manufacturers.
- *Supplying products as a means to an end, not an end in itself.
- *Knowledgeable, qualified, analysis – ensuring ONLY true environmental options.

1 Paper Stock	
Copy Paper: 20lb white copy paper, 88% Brightness, 100% Post Consumer Recycled, Acid Free, 100% Processed Chlorine Free	
011BA0	8.5"x11": 10 reams x 500 sheets - 5000/cs
011BB0	8.5"x14": 10 reams x 500 sheets - 5000/cs
011BC0	11"x17": 5 reams x 500 sheets - 2500/cs

3 Cleaning Supplies

NO VOC's, petrochemicals, phosphates, dyes, synthetic fragrances or preservatives and not tested on animals!

Multi Purpose Cleaners:

New Ecomax - Ultra Multi Purpose, Scent Free - excellent all-purpose cleaner sold in concentrate formula, designed for multi-purpose and multi dilutions.
 100% biodegradable, renewable resources, Certified Eco-Choice No Testing on Animals. Rated Non hazardous by WHMIS/OSHA, No EDTA or NTA! Great for hardwood floors, linoleum, carpets, counters, windows, mirrors, toilets... everything!

031AB0 **Regular Multipurpose:** 4 x 4ltr/cs
 WHMIS Exempt, No EDTA, No NTA, No Phosphates, and none of the main concerning chemicals. Certified by Canada's Environmental Choice Program under ECP33 - not quite as eco as the Multi Purpose (031AB0) but still one of the most eco options for a heavy duty multipurpose on the market.

031BA0 **Heavy Duty Multi Purpose:** 4 x 4ltr/cs
 An excellent all-purpose cleaner sold in concentrate formula, designed for multi-purpose and multi dilutions. Excellent for replacing varsol to remove oil and grease from metals and more.
 100% biodegradable, renewable resources, Certified with Canada's Eco Logo and the US Green Seal . No Testing on Animals! No VOC's, No Caustics or Acids, Non Alkali. Non Toxic, Non Flamable, Non Hazardous. Rated Non hazardous by WHMIS/OSHA and complies with all EPA, USDA, and MIOSHA regulations. Works well for heavy degreasing requirements of big industry. Strong concentrate (ranging from 1:80 to 1:10 depending on application)

032AA0 **Industrial - Heavy Duty Multipurpose Cleaner & Degreaser:** 4 x 4ltr/cs

Glass Cleaner:

An excellent alternative to Windex! No ammonium and void of chemicals of common concern. Certified with Canada's Eco Logo. No Testing on Animals! Almost no VOC's, No Caustics or Acids, Non Alkali. Non Toxic, Non Flamable, Non Hazardous. Rated Non hazardous by WHMIS/OSHA and complies with all EPA, USDA, and MIOSHA regulations.

036AA0 **Pre Diluted Glass Cleaner** - 4 x 4ltr/cs

Dish & Laundry Soap: Biodegradable, 100% Plant Based Ingredients, Made in Canada

037AB0 **Lavender Dish Wash:** (not for automatic dishwashers) - 12 x 740ml/cs

037AC0 **Tea Tree Dish Wash:** (not for automatic dishwashers) - 12 x 740ml/cs

037AD0 **Hypoallergenic Dish Wash:** (not for automatic dishwashers) - 12 x 740ml/cs

037BB0 **Laundry Wash:** HE - Hypoallergenic (4 x 3ltr) - 12ltr/cs

Liquid Hand Soap: Biodegradable, 100% Plant Based Ingredients, Made in Canada

Biodegradable, Non Toxic, People and Planet safe. No Testing on Animals! No EDTA, No NTA, No NPE's, No Sodium Lauryl Sulfate, No Sodium Laureth Sulfate, No Phosphates, No artificial fragrances, No unnecessary chemical additives. Carefully manufactured to omit all of the chemicals that are harmful to people or the environment (removing any chemicals that have ever been suspected of causing cancer, drying, defatting and irritating). WHMIS exempt - complies with all EPA, USDA, and MIOSHA regulations. Refill system helps the environment and reduces waste cost.

033AA0 White, Unscented - 4 x 4ltr/cs 

3 Cleaning Supplies			
Deodorizers: Different products suited for inorganic and organic matter such as urine, grease, blood, feces, garbage, food spills etc.			
	- enzymatic formula (not as environmentally sound as the cleaners above but a far better alternative to masking agents and the typical harsh chemicals that are found in deodorizers). Not tested on animals! -		
034AA0	Enzymatic Heavy Duty Spray: 12 x 1 ltr/cs		
R034BH0	Sprays: Assorted Scents - 20 x 118ml/cs		
R034CD0	Gel pack for wall dispensers: Apple spice - 12 x 4oz/cs		
R034CE0	Gel pack for wall dispensers: Tropical spice - 12 x 4oz/cs		
Urinal Pucks: Enzymatic Non Para pucks to replace cancer causing paradichlorobenzene.			
035BB0	Urinal pucks: bulk - <u>not</u> encased in plastic (12 x 12 sleeves) - 144/cs		
035BC0	Urinal pucks: encased in plastic screen. Note: the 035BB0 is the more eco option - 12/cs		
Cloths, Mops & Mop Handles: To prevent disposing of entire mops where mops are sold as one unit, typically with wooden handles, often virgin forest.			
039AB0	Microfibre Cloths: Soft, Magnetically charged cloth that is non abrasive & very effective - 12/cs		
039AD0	T-Shirt Wiping Rags: Old, Reused T-Shirts - 25lb/bag		
039AF0	Terry Cloth Towels: 12/cs		
039BA0	Mop Handle: Reusable Aluminum, Smooth, Light Weight, Varying Sizes, Weights & Colours		
039BB0	16oz Replaceable String Mop Heads: 12/cs		
039BD0	24oz Replaceable String Mop Heads: 12/cs		
Latex Gloves: Natural & biodegradable. Unpowdered. Alternative to the common Poison Plastic#3			
039CA0	Small: (10 x 100) - 1000/cs		
039CB0	Medium: (10 x 100) - 1000/cs		
039CC0	Large: (10 x 100) - 1000/cs		
Spray Bottles with Trigger Spray: For heavy duty, glass & all-purpose cleaner.			
R039DA0	24oz with water fill line - Sold individually (min 5/order)		
Dispensers:			
039HH0	Fan Dispenser (for gel deodorizer - code 034CD) - 12/cs		
R039HH0	Fan Dispenser (for gel deodorizer - code 034CD) - individual		
* We supply a variety of dispensers, factory direct, for soap, cleaners, deodorizers, paper amenities, etc. Pictures, options and/or catalogues are available upon request.			

4 Waste Containers

- * All bins are made from a minimum of 30% post-consumer recycled materials and most are from 100% post-consumer materials.
- * Made in Canada, from environmentally progressive, responsible companies.
- * Please call for pictures and price list on Recycling Containers.
- * All recycling containers are delivered and sold direct from the manufacturer and as such are most cost effective for companies/institutions ordering multiple units.

Large Multi-Port Units:

Attractive Tall-Standing Containers with optional backboard and front inlay. Ideal for public areas where appearance is important. Available in green, gray, and clay colour. * Made in Ontario from 100% Post-Consumer Recycled materials - including items that are typically destined for landfill such as chip bags. *All units include identifying labels (glass, mixed paper, etc.)

041AA0	2 slot (base unit)
041AB0	2 slot (back board)
041AC0	(frame inlay on lower part of unit)
041BA0	3 slot (base unit)
041BB0	3 slot (back board)
041BC0	(frame inlay on lower part of unit)

All bins are factory direct and customizable - prices vary with volume and individual specifications. Contact us for a quote!

*Backboard includes choice of posters (colourful pictures of appropriate recyclables)

Individual Squares:

Attractive Tall Standing Containers. Ideal for public areas where appearance is important. Available in green, gray, and clay colour. Sizes ranging from 27" to 36"

- * Made from 100% Post Consumer Recycled materials.
- * All units include identifying labels (glass, mixed paper, etc.) and/or fancy picture labels

Small legal size bin:

Ideal for under the desk, underneath kitchen sinks, in hotel guest rooms, etc. Minimum of 30% Post Consumer Recycled content. Available in various colours

Minimum of 30% Post Consumer recycled content. Available in blue or black only

Mini Bin: (small circular bin for desk tops)

Made from 70% pre-consumer, 30% post consumer recycled content. Black or green.
*Std Print = "This is all the garbage I make"

* Variety of other containers also available - all factory direct

(indoor/outdoor containers - many different sizes, colours and styles for glass, plastics, papers, compost, wood, batteries, etc.)

Please describe where and what you will be using it for and Green Shift can provide you with further options, ideas, and details.

***** Anyone purchasing recycling bins are eligible for a 20 minute consultation on how to set up a well functioning waste management system. Strong supporters may receive additional time *****

5 Waste Bags			
<i>Made in Canada. Please see below for note about recycled content.</i>			
Garbage Bags: (Black) 30% Pre-Consumer Recycled Content			
053AA0	Regular, 22"x24" - 500/cs	<p>Please note that the Post Consumer Recycled Content is lower than we would like, but it unfortunately is due to the nature of thin plastic.</p> <p>Specifically, to make quality thin film, that does not have pin holes, the resin must be very consistent. As such, thin plastic is unable to have a high post consumer recycled content. Colour is also an important factor.</p> <p>As a general rule, it is much easier to turn recycled materials into dark colours. It follows that thicker and darker coloured bags can be made from more recycled content and clear thin bags will have little to none.</p>	
053BA0	Regular, 26"x36" - 250/cs		
053BB0	Strong, 26"x36" - 200/cs		
053BC0	X Strong, 26"x36" - 200/cs		
053CB0	Strong, 30"x38" - 200/cs		
053CC0	X Strong, 30"x38" - 125/cs
